# THE MILK EXPERIMENT

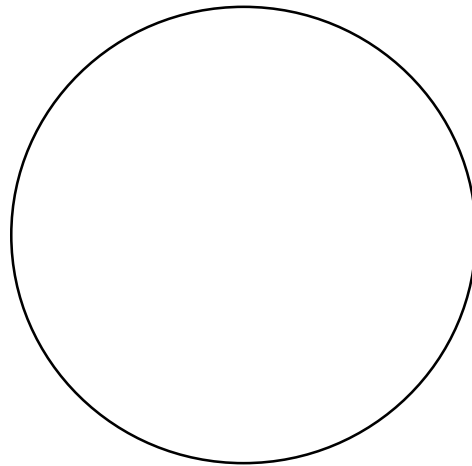

## Instructions:

1. Pour the milk into bowls and put four drops of different colored food coloring in a criss-cross/square pattern.
  2. Draw below what you think will happen in the next step.
  3. Dip your q-tip into the dish soap and then into the center of the bowl of milk (don't stir!). Try dipping it in different spots to see what happens.
  4. Observe and record your findings.
- 

## Prediction:

## Observations:

---

## Conclusion:

What do you think happened? Why?
